

Pharmacy Prior Authorization Quick Reference Guide for Hoosier Healthwise and Healthy Indiana Plan

MDwise Hoosier Healthwise (HHW) and Healthy Indiana Plan (HIP) programs have a robust preferred drug list and formularies available for our members. Please be aware that some prescription drugs on the MDwise formularies do require prior authorization. This guide will take you through the process for pharmacy prior authorizations and appealing authorization decisions.

Most of the MDwise HHW and HIP drug benefit is processed by MedImpact. However some specialty drugs and biologicals are processed through our medical benefit.

The MDwise formulary for Hoosier Healthwise and HIP can be found at the links below. The MDwise formulary clearly labels each drug with its preferred status and whether or not it requires step therapy, prior authorization or if only a limited quantity will be covered.
