THANK YOU

Greetings,

At McLaren Central Michigan, we are committed to, "Doing What's Best." What does best mean? **Best** isn't just an adjective we use for effect – it's the backbone of our philosophy. **Best** means putting patient safety above all else and using cutting edge technology to improve clinical outcomes, all while continuing to create new paths in our community to help patients get back to their lives. **Best** to us means we continue to raise our patients' expectations, while having the commitment and compassion to exceed them.

You are receiving this letter because we want to **thank you**. We thank you, from the bottom of our hearts, for the support you have provided to the hospital over the years. Whether you recently donated, or were part of a campaign several years ago, you are remembered and APPRECIATED. Thanks to your generosity, and the generosity of so many other community members and organizations, McLaren Central Michigan is able to live up to our commitment in "Doing What's Best."

Due to financial support gifted to the hospital in the last couple of years, we have been able to improve our services to the community in so many ways. In late 2016, we broke ground for an emergency department renovation that nearly doubled the size of our space. We were able to add specialty rooms and a separate entrance for the privacy of our patients.

In late 2017 and early 2018, we implemented improvements to our public waiting areas and lobbies. We were able to purchase more comfortable furniture and proper seating for patients and visitors needing special accommodations.

Lastly, in 2019 we were able to bring the latest technology in breast health to the community, the Genius 3D Mammography machine. This equipment is proven to detect cancer at a much earlier stage, therefore increasing patient survival and a better chance for families to stay together.

These projects, along with several other hospital initiatives were greatly supported by philanthropic dollars. The ever-changing landscape of healthcare proves now, more than ever, the need for community support. We **THANK YOU** for your unwavering nature to provide that support.

Enclosed you will find photos of the projects mentioned. We hope you enjoy viewing these photos and seeing the results of what amazing community support can do. Again, thank you for your generosity and continued support as we remain committed to "Doing What's Best" for the community we serve.

With warm hearts,

Rachel and Martin
