6 a.m. – 10:30 p.m. – Monday through Friday

6 a.m. – 6:30 p.m. – Saturday and Sunday

PET/CT – Appointment only

7:30 a.m. – 4 p.m. – Monday through Friday

CT – Appointment only

7 a.m. – 5:30 p.m. – Monday through Friday

Fluoro – Appointment only

8:30 a.m. – 2:30 p.m. – Monday through Friday

Ultrasound – Appointment only

7:30 a.m. – 4:30 p.m. – Monday through Friday

Dexa Bone Density – Appointment only

8 a.m. – 4:00 p.m. – Monday through Friday

You can refer patients for services in Cerner or by visiting mclaren.org/careconnect and submitting a referral form.

Laboratory

Utilizing a centralized approach for the entire McLaren system, McLaren laboratories are able to perform testing with greater efficiency and more cost effectiveness with a 24 hour turnaround time. Patients can generally be seen as soon as we receive their orders.

We offer a full spectrum of lab services performing hematology, blood transfusion, microbiology, and chemistry testing, as well as anatomic pathology for our hospital, community physicians, and long-term care facilities throughout the greater Lansing area. We also offer data management tools to help you track results and share them with your patients.

- Bi-directional EMR interface capabilities
- State-of-the-art instrumentation and equipment
- Board-certified pathologists
- Consistent accuracy and quality of test results
- Same-day turnaround for the majority of tests
- Electronic reporting to physicians
- Tailored laboratory partnership to meet your needs

McLAREN OFFERS A FULL RANGE OF LABORATORY AND RADIOLOGY TESTING

Radiology

Superior imaging technology and specialized physician review sets a foundation for focused care. McLaren's imaging services utilize advanced technology and tools including X-Ray, CT Scanning, Ultrasound, MRI, and Mammography so our team of skilled radiologists can analyze images electronically in high definition and make an accurate diagnosis.

For most imaging tests, patients can be seen within 48 hours and same day imaging appointments can be made for urgent tests.

- Bone Density
- Cardiac Stress Testing
- Interventional Radiology
- Magnetic Resonance Imaging (MRI)
- Mammography (2D and 3D)
- Nuclear Medicine
- PET/CT Scan
- Ultrasound
- X-Ray

Breast Imaging Center

McLaren Greater Lansing and MSU Health Care have partnered to bring a state-of-the-art breast imaging center to the greater Lansing community, located at McLaren's hospital campus. The Breast Imaging Center brings a comprehensive approach to diagnosing breast cancer and streamlining treatment pathways, all in a comforting environment for patients.

All of our physicians, clinicians, and staff are attuned to women's needs, and with their clinical expertise and understanding of your health concerns, they provide superior care.

At the Breast Imaging Center, patients have convenient access to the latest advances in breast imaging technologies with reports that are generated within 24 hours. Those who require breast biopsies are able to schedule within a week of their diagnostic imaging results.

Research

MSU scientists at Precision Health Program and Department of Radiology are leading a cutting-edge translational research project for primary prevention of breast cancer. The research team in cancer modeling, fabrication of nanoparticle-based contrast agents and interventional radiology are being applied to develop an image-guided intraductal delivery procedure for epithelial cell ablation.

This innovative procedure could provide a local less-invasive alternative intervention to prophylactic mastectomy for high-risk individuals in the near future.
