

# Provider Notification

Notification Date: 9/27/25

**To:** All Providers

**From:** MDwise Provider Relations

**Subject:** Laboratory Services Payment Policy-80050

**Effective Date:** November 15, 2025

---

## Summary

MDwise is implementing a NEW payment policy for Laboratory Services. The full reimbursement policy can be found on the MDwise website on the [Billing and Claims](#) page. This new policy applies to Laboratory Services, specifically services billed for 80050 as MDwise will no longer be covering the bundled code.

## Impact

**CPT code:** 80050 (general health panel)

**80050** includes the following codes:

**80053**-comprehensive metabolic panel (80053),

**84443**-blood count, thyroid stimulating hormone (TSH)

**85025**-complete blood count (CBC) (85025).

Because the panel code includes the individual codes **MDwise will require the individual component code be billed** rather than the bundled code.

## Action

For dates of service on or after 11/15/2025 MDwise will require providers to follow the Laboratory Services Payment Policy-80050 that can be found on the MDwise website.
