

Plan Update

Notification Date: 01/21/2025

To: Hospitals
From: MDwise Provider Relations
Subject: ProgenyHealth Partnership
Effective Date: March 1, 2025

Summary

Effective March 1, 2025, MDwise is happy to announce a partnership with ProgenyHealth, a company which specializes in Neonatal Care Management Services. Within the partnership, ProgenyHealth's care management program will enhance services to our members and support our mission to make a lasting difference in our members' lives by improving their health and well-being. ProgenyHealth's Neonatologists, Pediatricians and Neonatal Nurse Care Managers will work closely with our members, as well as attending physicians and nurses, to promote healthy outcomes for premature and medically complex newborns.

The benefits of this partnership for our providers include:

- The support of a team who understands the complexity and stress of managing infants in the NICU to achieve the best possible outcomes
- A collaborative and proactive approach to care management that supports timely and safe discharge to home
- A company that believes in sharing best practices and works with NICUs nationwide to improve the health outcomes of our next generation

Impact

Families will have a dedicated case manager who will give support and education to members in the program, and access to an "on-call" staff member available 24/7. For our hospitals, ProgenyHealth will serve as a liaison for MDwise providing inpatient review services and assisting with the discharge planning process to ensure a smooth transition to the home setting.

Please stay tuned for further information related to this partnership and process of infants admitted to a NICU or special care nursery in the coming months.
