TO REQUEST McLAREN'S ELECTRONIC MEDICAL RECORD (EMR) ACCESS

NEW

Ensuring our non-McLaren partners* have access to clinical information to provide the highest quality care to our patients supports Doing What's Best. McLaren strives to provide this access in an efficient manner, while ensuring the privacy of patient information and emphasizing proper compliance for those who require access.

To request external EMR access at McLaren for non-McLaren individuals, please click **HERE** to access the online form. Your request will be reviewed and if approved, will be sent to the appropriate individuals to process. McLaren will respond directly to the user with their access credentials once received from our IT Department. If your request is denied, you will be notified.

*Please note - this request process only applies to non-McLaren individuals who do not work in a McLaren facility. Non-McLaren employees working in a facility should follow appropriate access request processes for the McLaren site.

Please contact **privacy@mclaren.org** with any questions.
